BLUE WAVE BURST

LEGENDARY ARMORY
THE LEGACY CONTINUES

SONICLEAR

BEARING EDGE

The **SONIClear™ Bearing Edge** is standard on all Armory shells and allows the drumhead to sit flatter and make better contact with the shell. The result is a stronger and deeper fundamental pitch, effortless and consistent tuning, and a significantly expanded tuning range. For the serious player, the increased head to edge contact increases shell vibration, allowing the sonic nuances of the Hybrid shell to stand out.

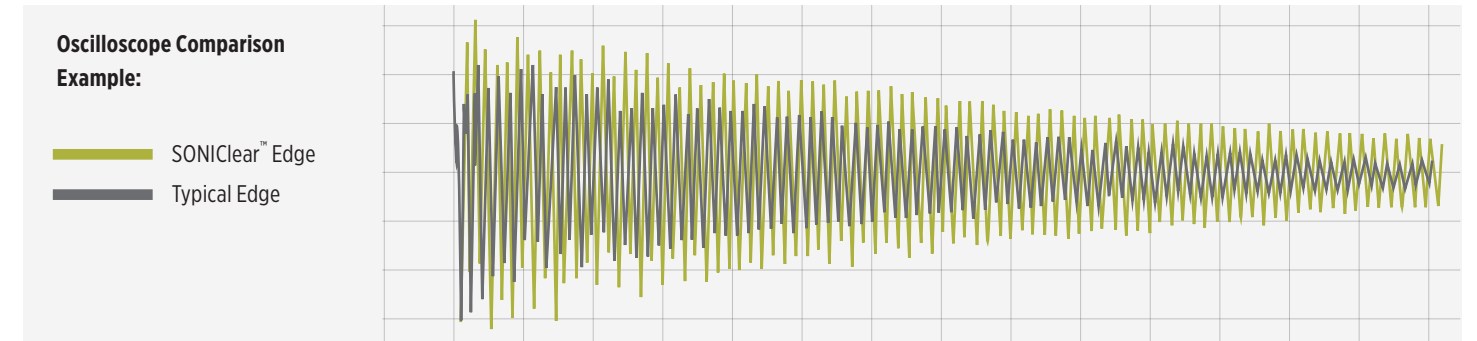

SONICLEAR EDGE AUDIO TEST SESSIONS

SOUND

The increased drumhead to shell contact achieved by the SONIClear™ Edge enhances shell vibration, resulting in the "biggest" sound possible from the drum.

Oscilloscope Example: The green waveform is a recording of a drum with the SONIClear™ edge. The dark grey waveform is a drum with a typical edge. Tuned to the same pitch and recorded identically, it's clear that the drum with the SONIClear™ Edge produces a much larger waveform from the initial strike through the full sustain of the note.

SUSTAIN

Because the drumhead sits flat on the SONIClear™ Edge, the tension applied during tuning is more balanced and stress-free. This allows the drumhead to vibrate freely and fully.

Waveform Comparison Example: The green waveform is a recording of a drum with the SONIClear™ edge. The dark grey waveform is a drum with a typical edge. The size of the SONIClear™ waveform indicates a lower and stronger fundamental pitch while the length indicates a longer sustain compared to a typical edge.

PREMIUM FEATURES

Armory Series drums include a number of premium features borrowed from the Mapex Saturn V line that will provide pro-level performance to players looking for an a gig-worthy yet affordable kit.

TOMAHAWK ARST4551CEB

- Size: 14" x 5.5"
- 1mm High Polished Steel
- Rounded 45 Degree Bearing Edge
- Bright, Focused, and Loud

The **TOMAHAWK** comes standard with all Armory kits. Made with a 1mm steel shell, the TOMAHAWK has penetrating accuracy and long range projection. The focused power of its rim shot is devastating.

SONIClear™ Suspension System

Straight from the Saturn Series, the SONIClear™ Suspension System on the rack toms increases overall resonance by preserving vibration in the drumheads and shell and preventing energy transfer to the hardware.

SONIClear™ Floor Tom Feet

The SONIClear™ Floor Tom Feet provide stable support while increasing overall punch and body, preserving vibration in the drumheads and shell and preventing energy transfer to the floor.

Insulated Bass Drum Claws

The Insulated Bass Drum Claws include rubber gaskets that protect the hoop from damage and prevent rattling or buzzing during periods of extended play.

TH676 Double Tom Holder

The TH676 double tom holder featured in the 2025 Armory Series, allows easy adjustment of rack tom angles, offering improved stability and a more consistent setup for drummers.

8ply 7.55mm Birch/Maple/Birch Hybrid Shells

The 8ply 7.55mm Birch/Maple/Birch Hybrid Shells deliver the ultimate in tone, resonance, and punch. They allow the drums to speak quickly and project clearly in the manner of old-world drum craftsmanship.

New Memory Lock

The new memory lock improves the consistency of the setup, offering greater stability and enabling drummers to easily maintain their preferred tom positions.

CONFIGURATIONS

What's Your Setup?

The Armory Series offers a variety of configurations designed to fit diverse musical applications. Whether the preference is fast and focused or big and booming, every drummer can find a setup to suit their style.

504S Fusion Shell Pack

The Armory Series "Fusion" Shell Pack is a mix of smaller sizes and are equally suited for the performing drummer needing a highly portable, great sounding kit, or the Jazz drummer needing some versatility.

*Component Drums Available.

628SFU Studioease Fast Shell Pack

The Armory Series "Studioease" Shell Pack includes short depth rack and floor toms that can span a wide range of playing styles. The shorter depths quicken the stick response and are easier to tune higher without sacrificing body or power. They're well-suited for the drummer needing a great kit for all music genres.

*Component Drums Available.

529S Rock Shell Pack

The Armory Series "Rock" Shell Pack features sizes that can span a wide range of playing styles, offering a blend of power and versatility well-suited for the drummer needing an all around, great sounding kit.

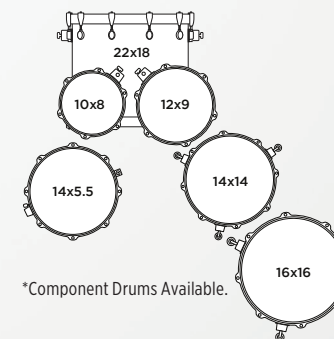

*Component Drums Available.

628S Studioease Shell Pack

The Armory Series "Studioease" Shell Pack features sizes that can span a wide range of playing styles. This shell pack offers a blend of power and tone well-suited for the drummer needing a full spectrum of sound for all musical challenges.

*Component Drums Available.
