“Entirely Maple, A Pocket-Friendly Sonic Classic”

Mars Maple emits a buttery, classic, and warm 100% maple tone transmitted through beautifully lacquered 7ply 7.2mm European Maple Shells for a sound that will launch your drumming to the next level and will command the attention of your bandmates as they get into your groove.

SONICLEAR

BEARING EDGE

The **SONIClear® Bearing Edge** is standard on all Mars shells and allows the drumhead to sit flatter and make better contact with the shell. The result is a stronger and deeper fundamental pitch, effortless and consistent tuning, and a significantly expanded tuning range.

PREMIUM

FEATURES

Mars Series drums include a number of premium features that will provide pro-level performance to players looking for an affordable but gig-worthy kit.

Straight from the Saturn Series, the **SONIClear® Suspension System** on the rack toms increases overall resonance by preserving vibration in the drumheads and shell and preventing energy transfer to the hardware.

The **Insulated Bass Drum Claws** include rubber gaskets that protect the hoop from damage and prevent rattling or buzzing during periods of extended play.

The **Matching Snare Drum** gives a unified look to the set while providing a solid fundamental crack. Its 14" x 5.5" size provides great tuning and musical versatility.

Bass Drum Mounted Tom Holders are standard with Mars Maple Series 504, 529 and 628 shell packs. A **Single Tom Arm and Clamp** for mounting the rack tom from a cymbal stand are standard on the 486 shell packs.

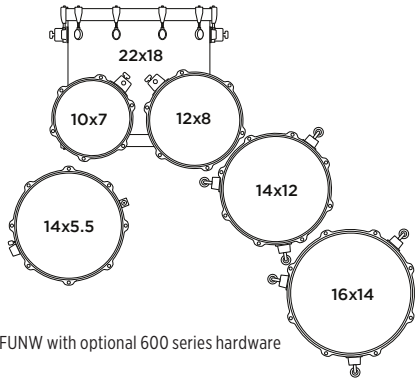

CONFIGURATIONS

What's Your Setup?

Mars series is for drummers to explore every possibility on the journey of playing drums. The variety of configurations fits each players demand for a wide range of muscial applications. These instruments release unlimited potential and allow the player to discover their own musical sound.

628SFU 6-Piece Studioease Shell Pack

The Mars Series "Studioease" Shell Pack includes short depth rack and floor toms that can span a wide range of playing styles. The shorter depths quicken the stick response and are easier to tune higher without sacrificing body or power. They're well-suited for the drummer needing a great kit for all music genres.

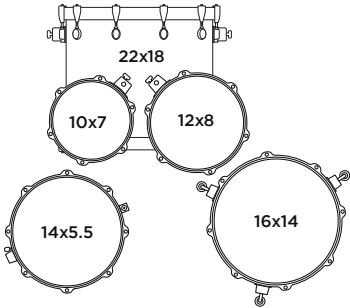

Model shown: MM628SFUNW with optional 600 series hardware

529SF 5-Piece Rock Shell Pack

The Mars Series "Rock" Shell Pack features sizes that can span a wide range of playing styles. This configuration offers a blend of power and versatility well-suited for the drummer needing a portable, great sounding kit.

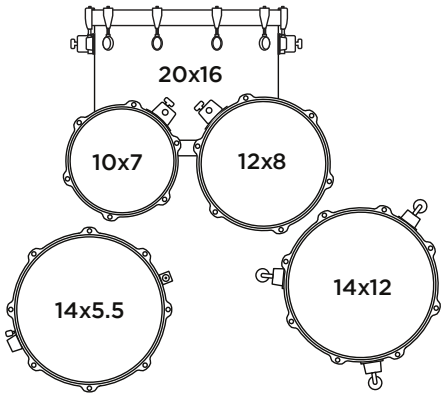

Model shown: MM529SFOD with optional 600 series hardware

504SF 4-Piece Fusion Shell Pack

The Mars Series "Fusion" Shell Pack includes smaller sizes that are equally suited for the rock drummer needing a highly portable, great sounding kit, or the jazz drummer needing versatility

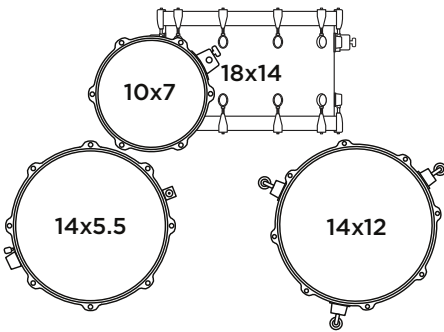

Model shown: MM504SFOG with optional 600 series hardware

486S 4-Piece Bop Shell Pack

The Mars Series "Bop" Shell Pack features a 1 up, 1 down with an 18" kick compact setup with a massive sound. This is the configuration you need when space is limited and you require response, power, and control.

Model shown: MM486SKD with optional 600 series hardware
